EDUCATION. PANELIZED INTO COMICS.

DOODLE GYAN takes your requested topic, and runs it through a Large Language Model to create a fluid storyline that incorporates essential facets of the topic you are attempting to learn. This is then used to generate relevant images that are then assembled into beautiful comic panels, allowing you to enjoy studying. Get Doodling!

ABOUT US

DOODLE GYAN was created by integrating an idea of generating comic strips embedded with educational topics, in an attempt to improve the medium of the same. Created for the 2025 DevSOC hackathon at VIT Vellore, by Team ShallowSeek.
